Decathlon Digital

Paris, France

Dear Hiring Manager,

I am writing to express my interest in the Front End Engineer – JavaScript/TypeScript (f/m/d) position at Decathlon, as advertised. With my strong background in frontend web development and a passion for technology and innovation, I am excited about the opportunity to contribute to Decathlon's E-Commerce team and its mission to drive technological and organisational transformation.

Throughout my career, I have demonstrated a commitment to collaboration, technical excellence, and continuous improvement. I am well-versed in frontend technologies such as ReactJS and Node.js, and I have experience working in agile environments, delivering high-quality solutions that meet user needs and business objectives. My technical expertise, combined with my agile mindset and passion for sports, make me an ideal fit for this role.

I am particularly drawn to Decathlon's emphasis on Cloud Native applications, APIs, inner-sourcing, and fostering a Product culture. I am excited about the opportunity to work collaboratively with the Engineering teams across Lille, Amsterdam, Paris, and Nantes, driving integration, technical leadership, and mentoring initiatives.

Furthermore, I am impressed by Decathlon's commitment to diversity, inclusion, and sustainability. As someone who values teamwork, collective intelligence, and making a positive impact, I am eager to join a company with a shared vision for creating a more sustainable tech model and fostering a safe and inclusive environment for all employees. In addition to my technical skills and experience, I bring a collaborative and inclusive mindset, a drive for innovation, and a genuine passion for sports. I am excited about the prospect of contributing to Decathlon's digital transformation and helping to shape the future of sports technology.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience align with the needs of Decathlon's E-Commerce team.

Warm regards,
Virendra Kadam
